RE: [Name] Pension Fund

Dear Mr. White:

The Board of Trustees of the [Name] Pension Fund received a packet of information from IPOPIF recently. The Trustees reviewed the documents at its meeting on [Date]. After thoughtful review and lengthy discussion, the Board tabled action on the documents until further review at its [Date] meeting.

There were several factors discussed by the Board relative to the decision to table the matter. As you know, the transfer date currently assigned is [Date]. With just over [Time Period] before the consolidation of assets, the Board did not feel it had enough information to be comfortable transferring the assets of the Pension Fund to the consolidated fund.

Additionally, the Board is monitoring the status of the pending litigation in Kane County and the Board feels it is premature to prepare to move assets until the outcome of the suit is known. The Board is further aware of pending legislation to extend the transfer deadline.

Finally, the Board feels there is a significant amount of information it needs to receive regarding the daily operation of its pension fund before, during and post consolidation before they can proceed.

For the reasons stated, the Board respectfully requests to be moved to a transfer date of June, 2022 or later.

Thank you for your consideration.

Sincerely,

[Insert Board Position]
